### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance:
2. The applicant has amended the claims to now require a narrow range of concentration for the hydrofluoric acid. The applicant has also further defined the substrate on which the stripping composition is to be applied.
3. Ramachandran teaches etching composition for etching metal. The instant claims now differ as they are directed to a polymer removing process. Furthermore, the range of HF in the Ramachandran reference is significantly lower than the instant range and teaches a preferable value an order of magnitude less than the lower range of the instant claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
